

CityScrub™

Green Machines® 636

The 636 Green Machines CityScrub adds even more flexibility to city cleaning and urban operations.

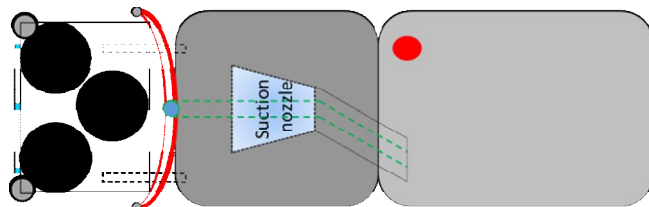

1 Water is supplied from the on-board water tanks and is delivered to 3 water spray jets positioned at the front of the unit.

2 3 disc brushes and a 1035 mm / 41 in cleaning path allow stubborn stains and deposits to be easily removed to enhance hygiene and appearance of public areas.

3 Water is suctioned with a squeegee connected to hopper via a 75 mm/3 in hose to get full suction power and great results.

CityScrub™

Green Machines® 636

<p>The CityScrub attachment enables a variety of outdoor surfaces to be cleaned efficiently and easily.</p>	
<p>The floor keeps dry with articulated squeegee connected to a 7200 m³ / 4200 CFM vacuum fan.</p>	
<p>The factory fitted, quick-fit connection system allows the 636 to be changed from a sweeper to a CityScrub in just 20 minutes.</p>
